

FACILITIES MANAGEMENT

CLOUD-BASED COMPLIANCE AND INTEGRATED MANAGEMENT SYSTEMS FOR FACILITIES MANAGEMENT

As a facilities management company, providing high-quality service to all clients is essential. But with paper-based systems, this can be unnecessarily difficult.

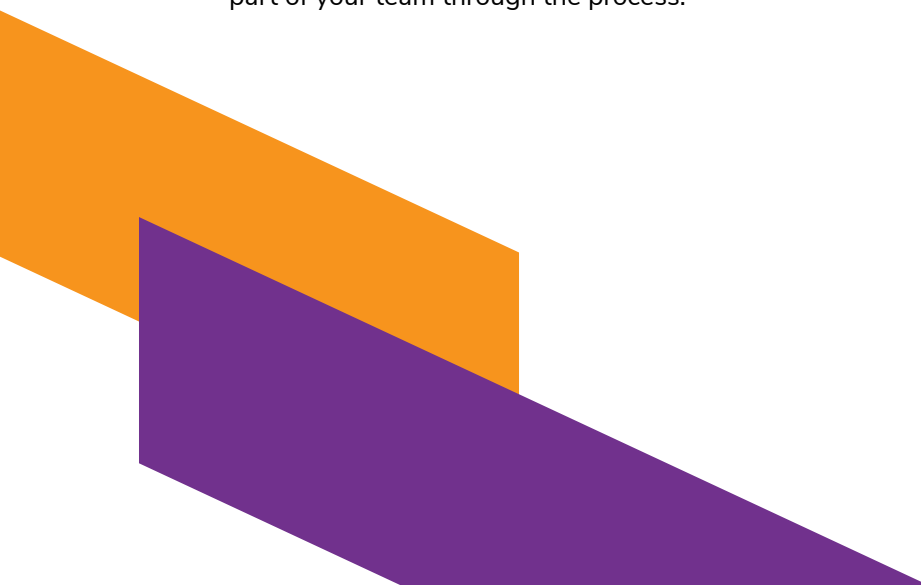

Integrated Compliance Solutions has developed a comprehensive, cloud-based, industry-specific compliance package that enables your business to automate certification requirements in one convenient paperless system.

Introducing Digital IMS+

Created by our talented software team, Digital IMS+ is a seamless, hassle-free and user-friendly solution for facilities management companies looking to develop streamlined cloud-based systems that are compliant with legislation and ISO standards.

We have helped hundreds of companies across Australia and continuously work to better our platform, implementing weekly updates based on user feedback.

Our exclusive Digital IMS+ package

- Assists organisations to become certified to relevant ISO Standards;
 - Gets you compliant in up to 90 days (assuming prompt completion of tasks required for certification by client);
 - Is fully customised to your business needs;
 - Includes legal requirements;
 - Provides a professional team who have been in the industry for many years to be part of your team through the process.
- 

A man with a beard, wearing a blue checkered suit and a blue polka-dot tie, is standing on a balcony. He is holding a black mobile phone to his ear with his left hand and has his right hand on a silver laptop. The background shows a modern building with large windows. In the top right corner, there are two overlapping geometric shapes: a purple triangle and a teal triangle.

Digital IMS+ key features

FULLY CUSTOMISED

Digital IMS+ combines hybrid customised consulting and cloud-based technology to build fully tailored, lean systems that are scalable to reflect your needs.

GET AND STAY COMPLIANT

Maintain ISO compliance and manage legal obligation registers, licence and permit registers and review notifications and expiry date reminders.

With Digital IMS+, you can also manage facilities management-specific audits, inspection and observation forms and checklists, ratings, scoring, non-conformance and corrective actions.

SEAMLESSLY AUTOMATE WORKFLOWS

Automated workflows free up more time for employees, reduce human error, speed-up processes and improve security.

EASE OF COMMUNICATION

Digital IMS+ supports ease of communication whether employees are in the office or working remotely. Built-in communication tools make it easy to capture and action feedback while also providing you with live updates.

USER-FRIENDLY

Generate individual portals for contractors and suppliers to self-manage and upload documents and insurance. They can also complete actions, checklists and inductions online in one place.

HIGHLY EFFICIENT

Impress clients with efficient systems and compliance. There is no need for Excel spreadsheets, and streamlined systems reduce duplication across documents.

REAL-TIME REPORTING

Access your latest insights with real-time dashboard monitoring and quickly and easily search for anything across all your data. Implement automatic data entry using tailor-made online forms and audits.

IMPROVE RISK MANAGEMENT

Effortlessly manage facilities management industry-specific risk matrixes, enterprise, project and operational risks.

TRAINING AND E-LEARNING MANAGEMENT

Manage courses, training needs analysis, training requests and approvals and create e-Learning systems for inductions and competency assessments in one place.

MEETING MANAGEMENT

Manage meetings, agendas, minutes and attendees and assign actions straight from meeting records, accessed and signed by your team working remotely, all in one dashboard.
